**TO WHOM SO EVER IT MA Y CONCERN**

This is to certify that M/S POLYMER APPLICATORS carried out work at our premises for six buildings having two wings each for ground + 4 storey buildings last year. The project of major repairs consisted of *crack filling with machine cutting, painting & wall waterproofing using repellent by spray method for area of @ 2 lakh Sq.ft.* They also carried out terrace waterproofing work.

Job went on for a period of five months & we must say here that entire period working together for the renovation of society was quite peaceful, enjoyable & satisfying experience. We felt getting worth of every rupee spent totaling to @ 20 lakhs. Relations from contractor to every committee members were cordial & are still very good. Their engineer & workers at site were very co operative & adjusted to need of members.

Their experience & expertise & in depth knowledge made us decide up on contract in their favor ignoring a major corporate which was front runner in the race. We were proud to understand at the end of the work that our decision & choice of M/S Polymer Applicators was right & correct.

We are definitely going to consider them in future works & will also recommend them to parties aspiring for similar nature of works. *There has been no problem after monsoon. Elder members were taken care nicely while internal repairs of their flat was carried out.* There had been no demand of anything extra than what was decided up on. They became family members & also actively participated in our social functions with family. We could make our society excellent looking & land mark with joint efforts.

Wishing all good luck & blessings to M/S Polymer Applicators & their team.

With warm regards

**To Whom It May Concern:**

29/10/2003

This is to certify that M/S POLYMER APPLICATOR carried out stringent waterproofing work of a large ELEVATED SERVICE RESERVOIR ( WATER TANK ) for our company at Goa which is supplying drinking water to entire Goa state. Work needed high precision & was to be carried out on DAY & NIGHT basis in limited work period.

We are proud to say here that POLYMER APPLICATORS did not let us down & we were with high heads to our clients GOA STATE P.W.D. with help of our specialized contractors.

Above job was given to Mr. Ambani by seeing him working very professionally at Our Mumbai residential society M/S OM SARVODAYA C.H.S.L., near Chakala cigarette factory, Vile Parfe ( West). They did excellent job without help of consultant by themselves with very high quality standards & with utmost honesty. We appreciated it being civil engineers ourselves with long experience.

Later on, our extended *trust & respect* fed to get tiern wont of external wall leakages & toilet waterproofing at house of our partner Mr. Laddha, at 51, Reena Apts., Chincholi bander road, Mated ( W ),Mumbai. We were happy not to be wrong that even this small volume job was also done with same level of enthusiasm without hitch in spite no extra ordinary financial *consideration*. *Work was finished before dead line of marriage of daughter of Mr. Laddha & we were happy once again.*

On request, we have issued this letter & with no hesitation to recommend POLYMER APPLICATOR as reliable, knowledgeable & professional contractor having values & respect for their words. We heartily wish them tremendous success & also assure them to refer with our own works all over India as & when relevant need be.

TO WHOMSOEVER IT MAY CONCERN

*This is to certify that of M/S Polymer Applicators carried out job for us for **terrace waterproofing using non destructive method** of grouting & coating at our project of MHASKAR building, Near Ruia college, Matunga ( C.R.) under consultant Mr. Deshpande of M/S Sewri Consultants Pvt. Ltd.*

*Building was very old & we were skeptical about outcome while handing over job in spite several old successful references of M/S Polymer Applicators. Terrace floor was having cracks sealed with bituminous strips & parapet wall was also damaged at several places. Some how , team of our waterproofing agency did a fantastic job by injecting low viscous resin & applying solvent based light reflective coating on entire area including balustrade above main terrace. Job was water ponded twice & for a prolonged period of a week second time. Not even a drop of water was seen inside flat down below. Timely completion prior to monsoon was another feather in cap.*

*We intend to work with M/S Polymer Applicators in all our future projects wherever we find suitable scope of work for them as per their core competence. We also recommend them as technically sound & commercially viable engineering concern for waterproofing ^structural repairs related works.*

*Wishing good luck & similar mutually beneficial success.*

# K Merchant Const. Pvt. Ltd.

42-44, "Shree Niwas", 5th Floor, Bandhu Gokhale Road, Opp. Swami Samarth Nagar, Girgaon, Mumbai -4.

## TO WHOMSOEVER IT MAY CONCERN

This is to certify that M/S POLYMER APPLICATORS carried out terrace waterproofing Work at project situated at 7<sup>th</sup> cross road at J.V.P.D. under architect Mr. Ajit Bhuta in year 2003 June.

It was not possible to raise height of floor for terrace garden which was proposed at later date. Brick bat koba china mosaic was ruled out as 6" depth was not possible & rain was fast approaching. We contacted this party at Madhav nagar at office of our another architect friend M/S H.M. Zaveri who gave good reference of their work at their own building. We were very apprehensive & were not quite sure of outcome of newly proposed technique of just 4 mm thick APP modified torch on membrane by Polymer Applicator.

However, we had no choice but to go ahead & try out this method at our prestigious client's site where lot of furniture & P.O.P work was already done on top floor. Failure of system might necessarily had caused loss of several lakhs over & above loss of precious time to redo the same again.

Our prestige was on stake with this new party whom we had not even seen before & were doing the first site with us & even their referral party who was our professional friend.

Thank god, trust put on Polymer Applicator came true & job was completed in time on war footings. Even after three monsoon, work is still in tact & we are quite sure of their services since after every monsoon, they had been pro active in asking us performance review. We fearfully visited site after heavy showers of 26<sup>th</sup> July 2005 which was highest in last 100 years & to our surprise, stilt ceilings were dry & not a single drop of water penetrated through treatment done by Polymer Applicator.

We now very strongly recommend them as highly reliable & professional waterproofing contractors & consultants who have in depth knowledge & passion towards this complicated subject. We also wish them all the success in future till they keep similar attitude towards customers.
